

DAYSCHOOL—FOR PUPPIES

Develop a confident, CALM, focused dog. Alleviate your “puppy” frustration. Exercise your puppy’s brain and body.

Length: 1 month

Min Age: 9 weeks

Max age: 5 months

GOALS:

- 🐾 Give puppies a solid, confident outlook on life that can only be achieved through **socialization** to new people, places, and dogs. (Because who wants a dog who is scared to be away from home, scared to meet people, aggressive to dogs...?! No one!)
- 🐾 Teach puppies how to be **CALM in the midst of distractions** like people and dogs. (We focus on turning your puppy into a calm adult citizen, so he isn't a terror whether at home, in his crate, or in public.)
- 🐾 **Alleviate** some of the “new puppy owner **frustrations**” by assisting with puppy problems like mouthing, chewing, potty & crate training, **obedience**, listening skills, etc. (And let's face it...everyone would love some help with their puppy.)
- 🐾 Give puppy parents a way to **exercise** their puppy's **brain and body** in a beneficial manner while they are at work, so they can come home to a calm house. (Yay!!)

PROGRAM INCLUDES:

- 🐾 **SOCIALIZING** to people, dogs, and new environments!!
 - Socialization will be done in a controlled environment, so you can be sure your puppy is learning good manners and how to calmly greet and play with others.
 - Habituation to novel surfaces and things, to help your pup be more confident through life.
 - 2 hours of Pup-Camp (play with dogs and people) during each training day.
- 🐾 **TRAINING for your PUPPY with a professional trainer**
 - 2-3 days of training & day-lodging each week (8 days total) w/ multiple potty outings, daily chew toys & treats.
 - Skills taught include: Name recognition, come, sit-stay, place-stay, drop-it, leave-it & no jumping or mouthing. Crate training, potty training*, and chew-toy training will also be tackled.
 - Individual and group training included to teach your dog to be able to listen when around others.
- 🐾 **TRAINING for YOU**
 - Private lessons at the start and end of the month, so that you can continue the dog's learning at home. (Consistency is key!)

Total Cost: \$800

***For more information, please contact training@dogwoodslodge.com or call 515-986-7387 and ask for the trainer.*

**We cannot guarantee that the puppy will transfer the potty training to the home setting. We have hard floors and very set potty schedules. The dogs help teach each other through modeling and scents. At home, the environment is very different.*

DAYSCHOOL—FOR PUPPIES

Continued....

INCLUDED BONUSES:

- Unlimited email and phone support for the first year of the puppies life!
- Free admission to a Basic Obedience class for practice
